Outwood Academy Newbold Parent Communication - Xpressions App

Dear Parent/Carer,

We are pleased to announce that we are launching a new application to improve the communication between school and home. The app will enable us to send push notifications, letters, updates and emergency communications directly to you without having to navigate the website via a text message.

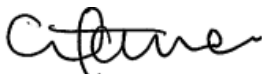

We would like to ask all parents and carers wherever possible to upload the Groupcall Xpressions app to your iOS or Android mobile devices. To do this simply search within your app store for **Groupcall Xpressions** showing the icon top right.

To access the site you will need to sign up with the email address and mobile number provided to us as priority for communication. If you have difficulty accessing the app, it could be that the email address we have registered for you differs from the one you are using.

For now we will only be using Xpressions for communication, although there are other tools available. For support go to <https://support.groupcall.com/xpressions>

If you are unable to use the app, do not worry as we will still be able to communicate with you via text/email or the website as we do currently. If you have any queries please email me at g.farrer@newbold.outwood.com

Kind regards

Gemma Farrer
Business Manager
